RESULTS & TESTIMONIALS

Here is a quote from a woman with a rare blood/brain disease who usually has had little or no energy for years: "I have been feeling so much better lately since my optimization began. I have so much more energy than I used to. The fact that I was well enough to go out of town to a 3-day conference was amazing in itself! Thank you, Thank you, Thank you."

Here is a quote from a woman with cervical cancer who has now been diagnosed as cancer-free: "I can't thank you enough for helping to optimize my health and clear any negative energies. There are no words to capture my heartfelt gratitude."

One lady was optimized for a major heart problem, atrial fibrillation, which required surgery. This was a long-term problem for her. After about a month, she stopped having further heart palpitations and had only a minor occurrence in the second month.

Here is a quote from a woman suffering multiple problems: "The skin rash is healing very well and I trust it will be gone soon! An infection in my stomach that appeared a lot earlier than the rash has healed as well! I am so thankful as it was not pleasant at all! My moods are generally a lot better than they were a few months ago, My ability to pick myself up and not allow my negative mood swings to take over is way better than it was before, and this alone is huge progress. I am keen to use the TimeWaver for continued healing in these and other areas."

One woman had torn her ligaments around her thumb in a car accident and the doctors had recommended surgery. After two weeks of optimization, the thumb healed and the pain had gone.

One person was optimized for ongoing lethargy and listlessness. Her energy and renewed zest for life returned within two days

A woman with terminal bowel cancer had been given 3 weeks to live by the doctors. They said no treatment would be able to help her. We immediately began to optimize her for removal of bowel cancer with the TimeWaver every hour around the clock for the next two months. It is now 3 months later and she has improved significantly. The doctors are now recommending chemotherapy since she had a miraculous turnaround.
